Features & Benefits

Adjustable Ottoman Strength - Different spring tensions are available to suit any application.

Double Lock - Locking both sides of the mechanism simultaneously ensures secure closing.

Easy Assembly - Fewest Parts - Only one cross member to connect, incorporated cable release (no assembly required)

Optional Articulated or Bolt-on Sub Ottoman – Designed to safely and attractively fill the gap between the ottoman and the seat when the unit is open.

Three-Position Balance - Mechanism offers three positions (closed, TV & full recline.) Transition between TV and full recline positions are smooth and continuous.

Unique Closed Position - “Press back” feature allows the back to recline with the ottoman closed.

Wall Proximity - Mechanism can operate within close proximity to the mall.

Frame Interchangeability – The structures featuring 5140 mechanisms can also accommodate 5128, 5114, 5180 or 5188 mechanism without any changes to the frame.

Measurements - Available in different seat widths:
18": 51 cm.
19": 53.5 cm.
20": 56 cm.
Other measurements by request.
